- **Create an Emergency Kit:**

Include essentials such as water, non-perishable food, flashlights, batteries, first aid supplies, medications, and important documents. Don't forget to pack items for your pets.

- **Secure Your Property:**

Inspect and reinforce your home's structure, including the roof, windows, and doors. Clear your yard of loose objects that could become projectiles in strong winds.

- **Backup Power Solutions:**

Consider installing a standby generator to keep your essential systems running during power outages. Ensure your generator is in good working condition and has enough fuel.

- **Lightning Protection:**

Install lightning protection systems to safeguard your property against electrical surges. Regularly check and maintain your lightning protection equipment.

- **Data Protection:**

Back up important digital files and documents, ideally, using an expert data protection services. Securely store hard copies in a waterproof container.

- **Stay Informed:**

Monitor weather updates from reliable sources. Follow evacuation orders and safety guidelines from local authorities.

COMMUNICATION IS KEY!

Establish a communication plan with your family and employees. Ensure everyone knows the evacuation routes and meeting points.

At Allstate Power, we specialize in comprehensive solutions to enhance your safety and resilience during hurricanes. Our services include lightning protection, standby generators, and data protection through SIS. We have the expertise to help you prepare effectively and stay safe during hurricane season. Stay proactive, stay safe.
